Project
Flash Card

Planning/Brainstorming

What the user should be able to do?

- Create New Flash cards
  - The flash cards should support both text & pictures
  - The creation of a new 'flash card' should create a new folder to contain the flash card data

- Using the flash cards they have created

- Modifying Exist flash cards
  - Adding new cards
  - Deleting cards
  - Deleting entire flash card folder

Forms Needed

• Main Menu
  - Options to:
    + Create new flash cards
    + Open Existing flash card's
    + Modify Existing flash card's

• Creating Flash Cards
  - Asks where Folder should be created
    + And what it should be named
  - ==Creating cards==
  - ==deleting cards==
  - ==Changing cards==

• Modifying Existing Cards
  - Ask what file to open
  - ==create cards==
 - ==delete Cards==
  - ==Change cards==

Same functions

Going to use the Same form
